

## Assisted Living Survey

Texas County we need your help!

As many are aware, the city of Houston has been working very hard for some time in the recruitment of an assisted living facility to locate here to help meet the needs of Texas County. Those efforts are at their most intense stage right now. This survey is to measure the interest and support the community has on the subject. This will help to give confidence to the contactor and the administration of the facility in relation to it being a good investment.

If you, a family member, someone living away from here etc. would be a candidate to live in this facility, now is the time to let your voice be heard. Please answer the short survey below and return it to, Houston City Hall, Attn: Ron Reed, 601 South Grand, Houston, MO 65483. Do this as soon as you receive the survey please.

This would be a very beautiful facility and one that we can truly be proud of. We realize this has been a long process and we've had a survey before. But please, let's take this survey with the most earnest attention that we possibly can, it's critical.
