Cotton condition was rated 4 percent very poor, 5 percent poor, 19 percent fair, and 72 percent good. Rice planted reached 91 percent, compared to the 5-year average of 78 percent. Rice emerged reached 84 percent, compared to the 5-year average of 57 percent. Rice condition was rated 5 percent poor, 15 percent fair, 72 percent good, and 8 percent excellent. Winter wheat headed reached 95 percent, compared to the 5-year average of 80 percent. Winter wheat condition was rated 3 percent poor, 18 percent fair, 71 percent good, and 8 percent excellent.

MISSOURI WEEKLY HAY SUMMARY 05/23/24
Farmers managed to get back into fields this past week. Planting was priority for most although there was some having done by those brave enough to not look at the weather and lucky enough to not have a rain pop up over their fields. Despite some delays over the last couple of weeks hay progress is running just slightly ahead of the five-year average in the state. Although there is some hay moving overall movement is slow and demand is light which is fairly typical for this time of year. The supply of hay is light to moderate, and prices are mostly steady. The Missouri Department of Agriculture has a hay directory at https://apps.mda.mo.gov/haydirectory or visit the University of Missouri Extension feed stuff finder at https://feedstufffinder.org
